## **Introduction to Psychology** James W. Kalat

Jim Kalat's best-selling INTRODUCTION TO PSYCHOLOGY takes a "critical thinking" approach to the major theories and concerns of psychology. By prompting students to ask themselves questions like "How was this conclusion reached?" and "Does the evidence really support it?," Kalat encourages the use of scientific principles. He walks students through the hypothesis-method-results-interpretation steps that psychologists use when attempting to answer questions about human intellect, emotion, and behavior. Kalat's approach is proven to help students separate what merely sounds plausible from what is scientifically provable?both in the psychology classroom and beyond it. With his humorous writing style and hands-on "Try It Yourself" exercises, Kalat puts students at ease and gets them involved with even with the most intimidating concepts. Within each chapter, he "chunks" the material into a modular format so that students can master one idea at a time, building confidence as they go. This format makes it convenient for instructors to assign material to match the way they teach the course. Kalat's supplements package includes substantial resources for professors and students alike. Students receive a free CD-ROM with the text, free access to the Book Companion Web Site (featureing a personalized Self-Study Assessment program--see below), free access to InfoTrac College Edition, and free access to vMentor online tutoring. Instructors receive an Instructor's Resource Manual (now in a three-ring binder format), Test Bank with item analysis, and much more. See below for details.

### **From reader reviews:**

#### **Jesse Linder:**

Book is usually written, printed, or outlined for everything. You can learn everything you want by a publication. Book has a different type. To be sure that book is important issue to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A reserve Introduction to Psychology will make you to be smarter. You can feel a lot more confidence if you can know about almost everything. But some of you think this open or reading a book make you bored. It is not make you fun. Why they may be thought like that? Have you seeking best book or appropriate book with you?

#### **Bertram Staten:**

Playing with family in a park, coming to see the water world or hanging out with buddies is thing that usually you may have done when you have spare time, subsequently why you don't try issue that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love Introduction to Psychology, you can enjoy both. It is good combination right, you still wish to miss it? What kind of hang type is it? Oh come on its mind hangout folks. What? Still don't buy it, oh come on its called reading friends.

#### **Jack Jackson:**

This Introduction to Psychology is great book for you because the content that is full of information for you who else always deal with world and have to make decision every minute. This book reveal it data accurately using great organize word or we can say no rambling sentences inside. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but challenging core information with lovely delivering sentences. Having Introduction to Psychology in your hand like having the world in your arm, details in it is not ridiculous one. We can say that no publication that offer you world throughout ten or fifteen minute right but this publication already do that. So , it is good reading book. Heya Mr. and Mrs. active do you still doubt that?

#### **Maria Kim:**

Many people spending their moment by playing outside together with friends, fun activity together with family or just watching TV the entire day. You can have new activity to pay your whole day by reading a book. Ugh, you think reading a book can actually hard because you have to use the book everywhere? It fine you can have the e-book, getting everywhere you want in your Touch screen phone. Like Introduction to Psychology which is keeping the e-book version. So , try out this book? Let's observe.
