On Methuselah's Trail: Living Fossils and the Great Extinctions Peter Douglas Ward

On Methuselah's Trail tells the story of some of the Earth's most remarkable inhabitants living fossils.

Labelled 'living fossils' by Darwin, the ancient animals and plants Peter Ward explores have survived with little or no change the cataclysmic events that transformed life on earth. These 'Methuselahs' can tell us much about the history of life and about the great extinction periods in which so many other species died out.
