William H. Stewart

**The Alabama State Constitution (Oxford Commentaries on the State Constitutions of the United States)** William H. Stewart

*The Alabama State Constitution* provides extensive analysis on American's longest state constitution, with an emphasis on the impact of recent court decisions declaring several of its most recently adopted provisions as in conflict with the U.S. Constitution and thus invalid. Since entering the Union in 1819, Alabama has had six constitutions. While the original constitution was regarded as one of the most progressive in the nation, its current constitution, adopted in 1901, is one of the most restrictive, especially from the perspective of the limits it imposes on local governments.

The second edition updates and expands the previous edition, providing new analysis, with citations to court decisions and relevant scholarly commentary. This edition provides important accompanying explanations on newly added provisions including gay marriage, immigration, environmental protection, energy, and taxation and the court decisions interpreting them.

*The Oxford Commentaries on the State Constitutions of the United States* is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research.

Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents.
