Nuclear Medicine Exam Questions

Andrew Kim MD

Nuclear Medicine Exam Questions Andrew Kim MD

This short book was written primarily for senior medical students rotating through nuclear medicine, residents-in-training, and fellows, in nuclear medicine and diagnostic radiology, who are studying for exams and tests. It may also be useful for those physicians who have completed their training, but would like a cursory review of testable subject matter. This book is not a substitute for any textbook, nor is it a complete review of nuclear medicine. It should be used in conjunction with other examination books, lectures and texts. The format is both multiple choice and true/false. Answers are conveniently supplied immediately following each question.
