Irish and Scotch-Irish Ancestral Research: A Guide to the Genealogical Records, Methods and Sources in Ireland - 2 volumes Margaret Dickson Falley

Preface - "There are now more than 30,000,000 descendants of the Irish and Scotch-Irish who emigrated from Ireland to the American Colonies, the United States or Canada. This is a conservative estimate, computed from the emigration figures in various published sources noted in these two volumes; allowing an average of thirty years from the birth of one generation to another, after the arrival in America, and only doubling the descendants of an emigrant in each of the succeeding generations. The two volumes are arranged to meet the requirements in the way of guidance."
