When Benjamin Franklin descended the front steps of Independence Hall on September 17, 1787 after signing the new Constitution of the United States, someone shouted a question: "Well doctor, what have we got - a republic or a monarchy?" Franklin replied, "A republic...if you can keep it." Written by former Navy Intelligence Specialist and 22-year state police commander Todd Douglas, it is the first book of its kind to provide the historical record of the decline and fall of America's constitution, and to combine that context with the political and intellectual trickery that keeps the statist elites of both major political parties in power. The two-part book chronicles the highlights of the constitution's demise from the Alien and Sedition Acts of 1798, to Abraham Lincoln's suspension of Habeas Corpus and invasion of the Southern Confederacy, through Woodrow Wilson and FDR's direct repudiation of both the Declaration of Independence and the constitution.
