**Can't seem to make money consistently when trading or investing?  
This book might solve that one problem.**

The problem might not be your trading technique.

The problem is not the analyst, the company, the government, or your internet connection.

The culprit might be your discipline.

The market is, after all, easily abused and used as a gambling tool.

Are you really trading, or are you still using your "feeling" when trading and hence, you are gambling?

**Don't give up on trading and accuse that the market is rigged...yet. Read and follow the 21 unbreakable cardinal rules of trading outlined in this book!**

## **Why using rules when trading?**

Is the market rigged? Are there bigger powers out there conspiring to take every penny we put in the market?

No.

But human nature dictates that majority of the losing traders would then play the blame game.

They pointed their fingers on the big players, on *High Frequency Trading*, on the economy, on Obama, on Bush, on Democrats, on Republicans, on China, on Greece, on their sisters, on their mothers, on....you got the idea...

...while they should just stop, take a look at themselves, and ask:

Did I make your last investment by *simply guessing* or by using *a systematic technique*?

The latter requires high level of discipline.

The secret of making money trading or investing is not external.

## **How disciplined trading will benefit you**

Because losing money in trading, no matter small, can have impact beyond monetary value.

The financial strain caused by losing money can affect many areas. Relationships got ruined, jobs were lost, trusts got broken, and life savings were lost.

Why it is so hard for everyone to make money consistently in the market? We look around and the world is full of people who lost their hard-earned money in the market.

Most traders-investors are undisciplined and this book intends to change it!

Making decisions without sound analysis and prudent risk management, we have the same chance of being right with all those Baccarat players in the casinos.

Without plan, trading is merely gambling.

We are devising sound, solid, simple, yet profitable trading plan by having --- and following --- certain trading rules.

## **What you'll learn**

1) Selective Trading: How you can optimize trading opportunities by following sets of rules.

Remember: Trading is not about quantity. It is about quality.

2) Difference between Trading & Gambling: How you can make more money by NOT "following your gut". How did your gut treat you in Vegas? Not good, was it?

3) Less trading stress: How you can feel good knowing you are following a system and not merely a feeling, which in turns make you calmer and more confident.

4) Discipline is A Learned Skill: This is the reason the legendary Peter Lynch once said "*Natural-born investor is a myth.*"

## **Are you really doing what it takes to be a SUCCESSFUL investor or trader, or just talking about it?**

## **Don't Leave Your Trading or Investing to Chances...**

...because then frankly, you just gamble your money away. Might as well go to Vegas. More fun.

Trading is a respectable profession that requires commitment, determination, and persistence. The trading learning curve also requires your time, energy, and capital.

**So in the end, we all can be CONSISTENTLY PROFITABLE investors and traders.**
