*Handbook of Interpersonal Competence Research* offers a vital desk reference to anyone doing research on social skills and interaction. Interpersonal competence, defined broadly, refers to the quality or skillfulness of social interaction. The reference manual provides a complete and comprehensive bibliography on this subject, with over 1,600 entries, in addition to a review of over 80 measures directly related to the study of competence. The *Handbook* covers more measures, more constellation measures, and provides a far more detailed bibliography than any source available to date. No other work on this subject approaches the level of breadth and depth of both published and unpublished background sources. *Handbook of Interpersonal Competence Research* will be valuable to clinicians, consulting psychologists, organizational consultants, researchers, and students interested in the assessment of social skills.
