## Neuropsychology for Clinical Practice Etiology, Assessment, and Treatment of Common Neurological Disorders (APA Clinical Psychology Books)

This volume explains the aetiology, symptoms and effects of the most common neurological disorders, and presents practical guidance for working with these clients and their families. It should be of interest to practitioners with clients experiencing neurological problems. Clinical neuropsychologists are given guidance on test batteries and interview questions that work well in evaluating clients with specific disorders. Advanced graduate students and neuropsychology post-doctoral fellows should find that the descriptions of the neuropsychological assessment process helps them in understanding and conducting neuropsychological evaluations.
