This collection brings together for the first time the key primary documents in the history of the abortion controversy in the United States. Organized by historical period, these 92 documents tell the story of this highly charged issue. An explanatory introduction geared to the needs of high school and college students accompanies each document. The collection emphasizes the political and social aspects of the debate, and many voices and conflicting views resound?in congressional hearings, Supreme Court decisions, government reports, party platforms, position papers, statutes, biographical accounts, and news stories. The heart of the work is the drama of *Roe v. Wade*?the cases that led to it, the Supreme Court decision and dissenting opinions, the reaction in Congress, public opinion, political consequences, and the most recent court tests.

The work is divided into five sections: Part I covers the historical period from its European inception until the beginning of the reform movement in the United States in the 1960s. Part II looks at the developments in 1960-1972 that led to the Supreme Court decision in *Roe v. Wade* in 1973. Part III focuses on *Roe v. Wade* and the reaction to the decision. Part IV, The Battlelines Are Drawn, 1974-1980, describes the political battles over abortion in the 1970s. Part V includes documents from the Reagan/Bush administrations and ends with the beginning of the Clinton administration in 1993. Each chapter includes a list of suggested readings. The book concludes with a chronology of events in the abortion controversy and a list of decisions of the United States Supreme Court relating to abortion. The collection will be especially useful for high school, junior college, and college students, and for public libraries.
