Todd's Cardiovascular Review Book: Volume 3: Hemodynamic Calculations (Todd's Cardiovascular Review Books) J. Wesley Todd RCIS

Todd's Cardiovascular Reviews are the leading study guides for cath lab professionals. Organized around the most current exam content/matrix for the national CV exams, Todd's Review books include hundreds of sample questions designed to be similar to the exams you will take, with the specific content of each national exam outlined and explained, along with exam tips and study aids. You need Volume 3: Hemodynamic Calculations if you are:

- Preparing for either your CCI registry exams (RCIS) or ARRT exams (CI and VI)
- Working as an invasive or interventional lab specialist
- Seeking professional cardiovascular training and development hours

Cardiovascular Review Vol. 3: Hemodynamic Calculations includes over 500 questions, answers, explanations, and references designed to help invasive professionals such as nurses, technicians, cath lab or interventional lab specialists as they study and prepare for exams. Vol. 3: Hemodynamic Calculations focuses on cath lab hemodynamics, calculation methods, and measurement examples, including chapters on:

- Cardiac pressure identification
- Reading pressures
- Pressure recording systems
- Pressure pathology
- Valve area calculation
- Cardiac outputs and shunts
- Quantitative LV angiography
- Coronary hemodynamics and IVUs
- Other measurements made in the cath lab

Maximize your knowledge. Customize a comprehensive learning plan by matching topics in Todd's Cardiovascular Review Volumes 1, 2, 3, 4, and 5 with the content for your profession and exams. We have included information that we believe will be on the national CV Invasive Registry examinations. However, is up to you to match appropriate material from these volumes with the content of your exams. Effective, efficient learning. Todd's Cardiovascular Reviews are written in easy-to-understand language, with graphics included on virtually every page for visual learning. Those preparing for invasive specialty registries who will need additional volumes can purchase them separately here at www.CreateSpace.com. Since CreateSpace prints on demand, your total price is reduced. Save money by purchasing the specific volumes needed for your professional development. To see all five volumes search for "Wesley Todd" in the CreateSpace "store":

- Todd's Cardiovascular Review Volume 1: Invasive Basics
- Todd's Cardiovascular Review Volume 2: Invasive Diagnostic Techniques
- Todd's Cardiovascular Review Volume 3: Hemodynamic Calculations
- Todd's Cardiovascular Review Volume 4: Interventions
- Todd's Cardiovascular Review Volume 5: Practice Exams for Invasive CV Technology

About the Author: J. Wesley Todd is a professional educator with an engineering degree and 23 years in teaching cardiovascular technology, experience writing national board exams, and takes the exams himself every 2-3 years. He has received the highest exam scores in the country twice, updates the books regularly, and now writes and produces review guides and training content full time.
